Zone Offense

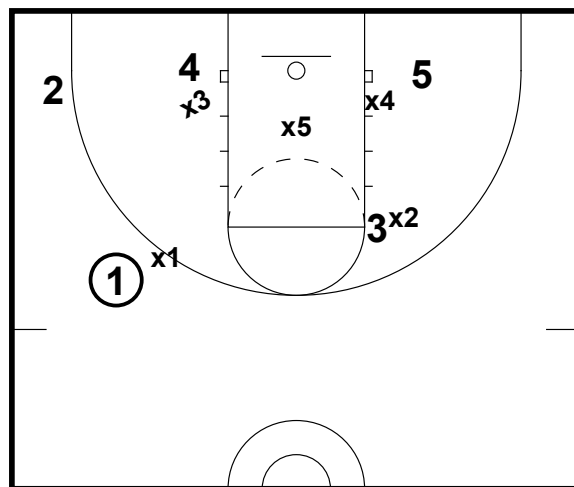

WIDE:

5 will set screen on the top most defender of the wing (forward may also be up). 5 will roll to short corner once wing uses the screen.

3 attacks the gap in front of X1 to force the defense into a decision. X1 picks up 3, then 3 will pass off to 1 or 2. If X1 sags to play the pass, 3 will take the shot. If X5 picks up 3 then 4 should duck in for a post up.

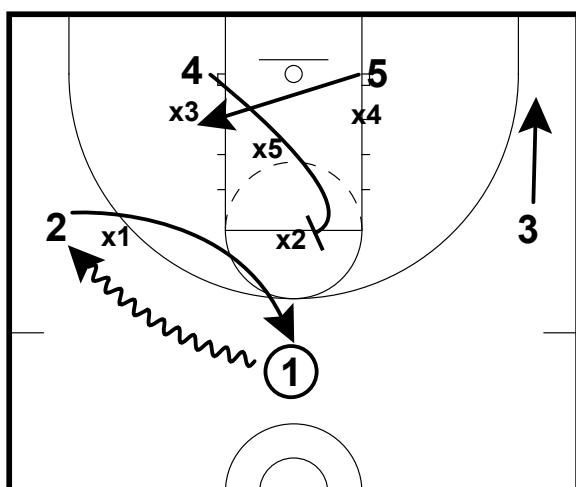

Zone Offense

WIDE:

1 can attack the gap for a shot as X1 attempts to close. The next pass will be based on the decisions of 4 and X3. If X3 is cheating out to defend pass to 2, then 4 will crash in on X5 and post up deep. If X3 is inside or in front of 4, the post will attempt to set a screen for 2 and then post up.

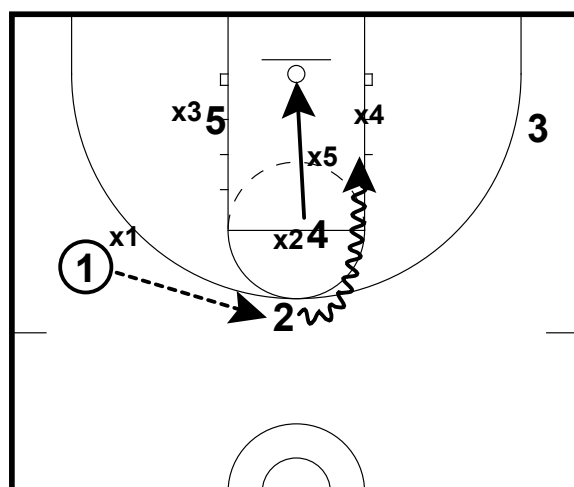

Zone Offense

SHALLOW:

Play is begun by dribble entry to the wing. 2 will interchange with 1's original position with a shallow cut to the top of the key. 3 will begin sinking to the corner and one of the posts will sneak up to the high post.

Zone Offense

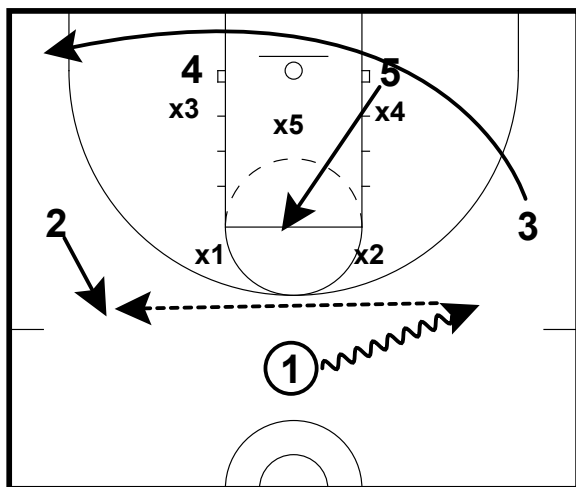

SHALLOW:

Ball is reversed to 2 who will use the screen set by 4 to attack the basket down the lane line. 4 will roll to the basket so if 5 picks up the ball they should be open. If X4 stays down then the ball is kicked out to 3 who has sunk to the corner ready to shoot.

CIRCLE:

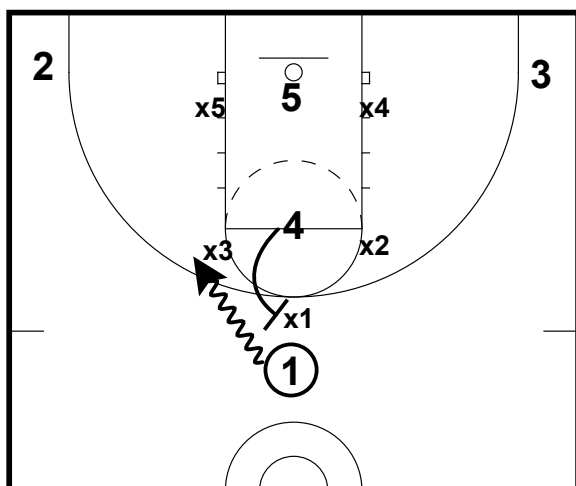

Zone Offense

CIRCLE:

3 drags out post on cut to the corner. Opens up crack in post up for 4 on X5. If low post is defended, then x-action from 5 diving will be open.

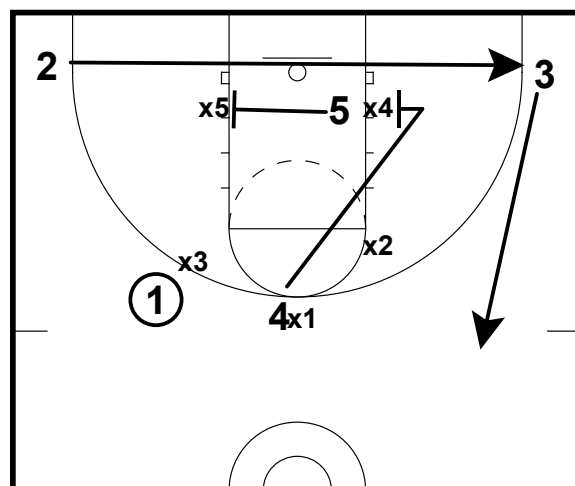

Zone Offense

Drag:

If 1 gets passed X3 then shoot. If 1 passes to 2 then 5 should post up on X4. If 1 drags out X3, 4 may be open on the roll to the basket.

Zone Offense

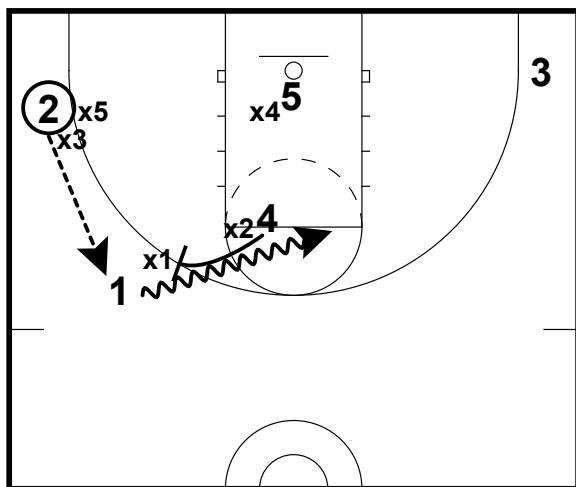

3 Deep:

5 will run to ballside and hit/post up on X5. 4 will dive to the weakside and screen for X4. They will roll open to ball after 2 cuts past to corner.
